DIGITAL PRINTING

The application of digital printing technology allows the computer directly output high fidelity color graphics, printed on SPC substrate surface. It's a complete digital solution, from design to finished product.

The technology can not only speed up the progress of mass production, but also accept the small batch production of graphic customization. This provides unexpected convenience for both the lead time and the market response.

AN EXPLORATION INTO THE NEW GENERATION OF GRAPHIC DESIGN

Unique & Exclusive Designs

Power Dekor provides exclusive graphic designs and accepts your customization.

Unlimited Patterns

Pursuit of high precision graphics enables us to provide you with the design of the continuous patterns.

Alternative To Decor Film

Thanks to the technology. No need to stock up on décor film.

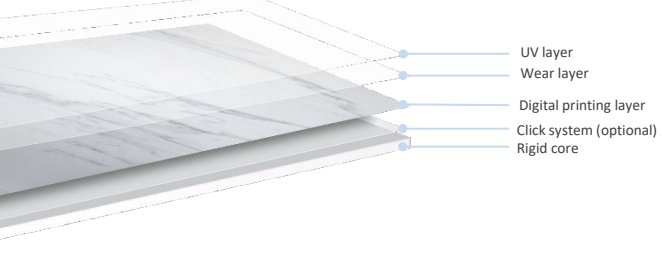

SPC WALL PANEL

Design your own unique space by choosing our SPC wall panel.

When consumers pursue the multifaceted nature of ceramic tile and the diversification of stone texture, they do not know that the SPC wall panel has been able to achieve the same effect by **digital printing technology**. Moreover, SPC wall panel is also superior to tiles because of its soft touch. Compared to ceramic tile, it is warmer and resilient.

CONSTRUCTION

FEATURES

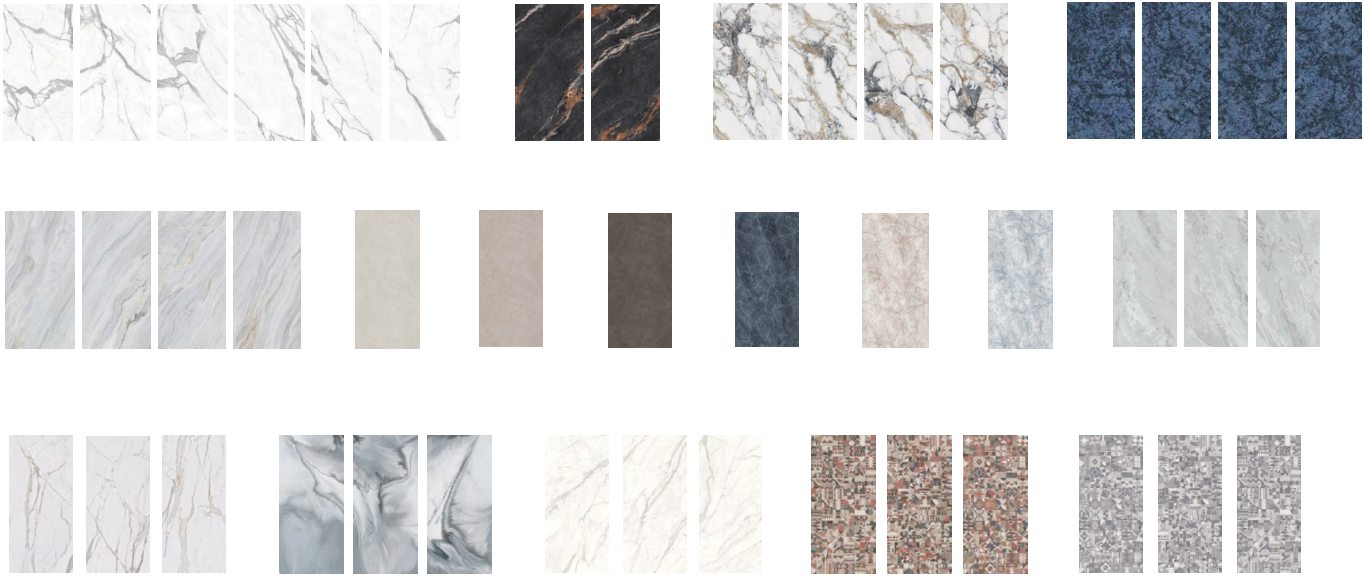

PARAMETERS

SIZE	Panel	2600 x 470/620/950/1220 mm
	Tile	620 x 310 mm
THICKNESS		4.0 / 4.5 / 5.0 mm
SURFACE		Smooth
GLOSS		Matt / High
PROFILE		T&G
