Power Dekor worldwide

A dream since 1995.

In 1995, Power Dekor founders discovered laminate flooring during a visit to Europe while then in China, wood flooring referred to solid wood only. This trip opened a new chapter to those founders' life. Why not introduce this beautiful and functional flooring into China? **So they did it.**

Nowadays, Power Dekor flooring owns 3,000 specialty stores in China, 5 overseas subsidiaries and several distributors across Southeast Asia and Oceania. And, has established strategic cooperation with partners in South America, Europe and South Asia.

We dreamed of creating comfortable living spaces for Chinese customers. We are dreaming of connecting with worldwide customers. **Join us with a wonderful brand of Power Dekor.**

Global value chain plays a role.

Meet the best of the world.

At Power Dekor, we attribute our success to global connection. By doing so, we are always able to fulfill customers ever-improving needs in no time.

Manufacturing

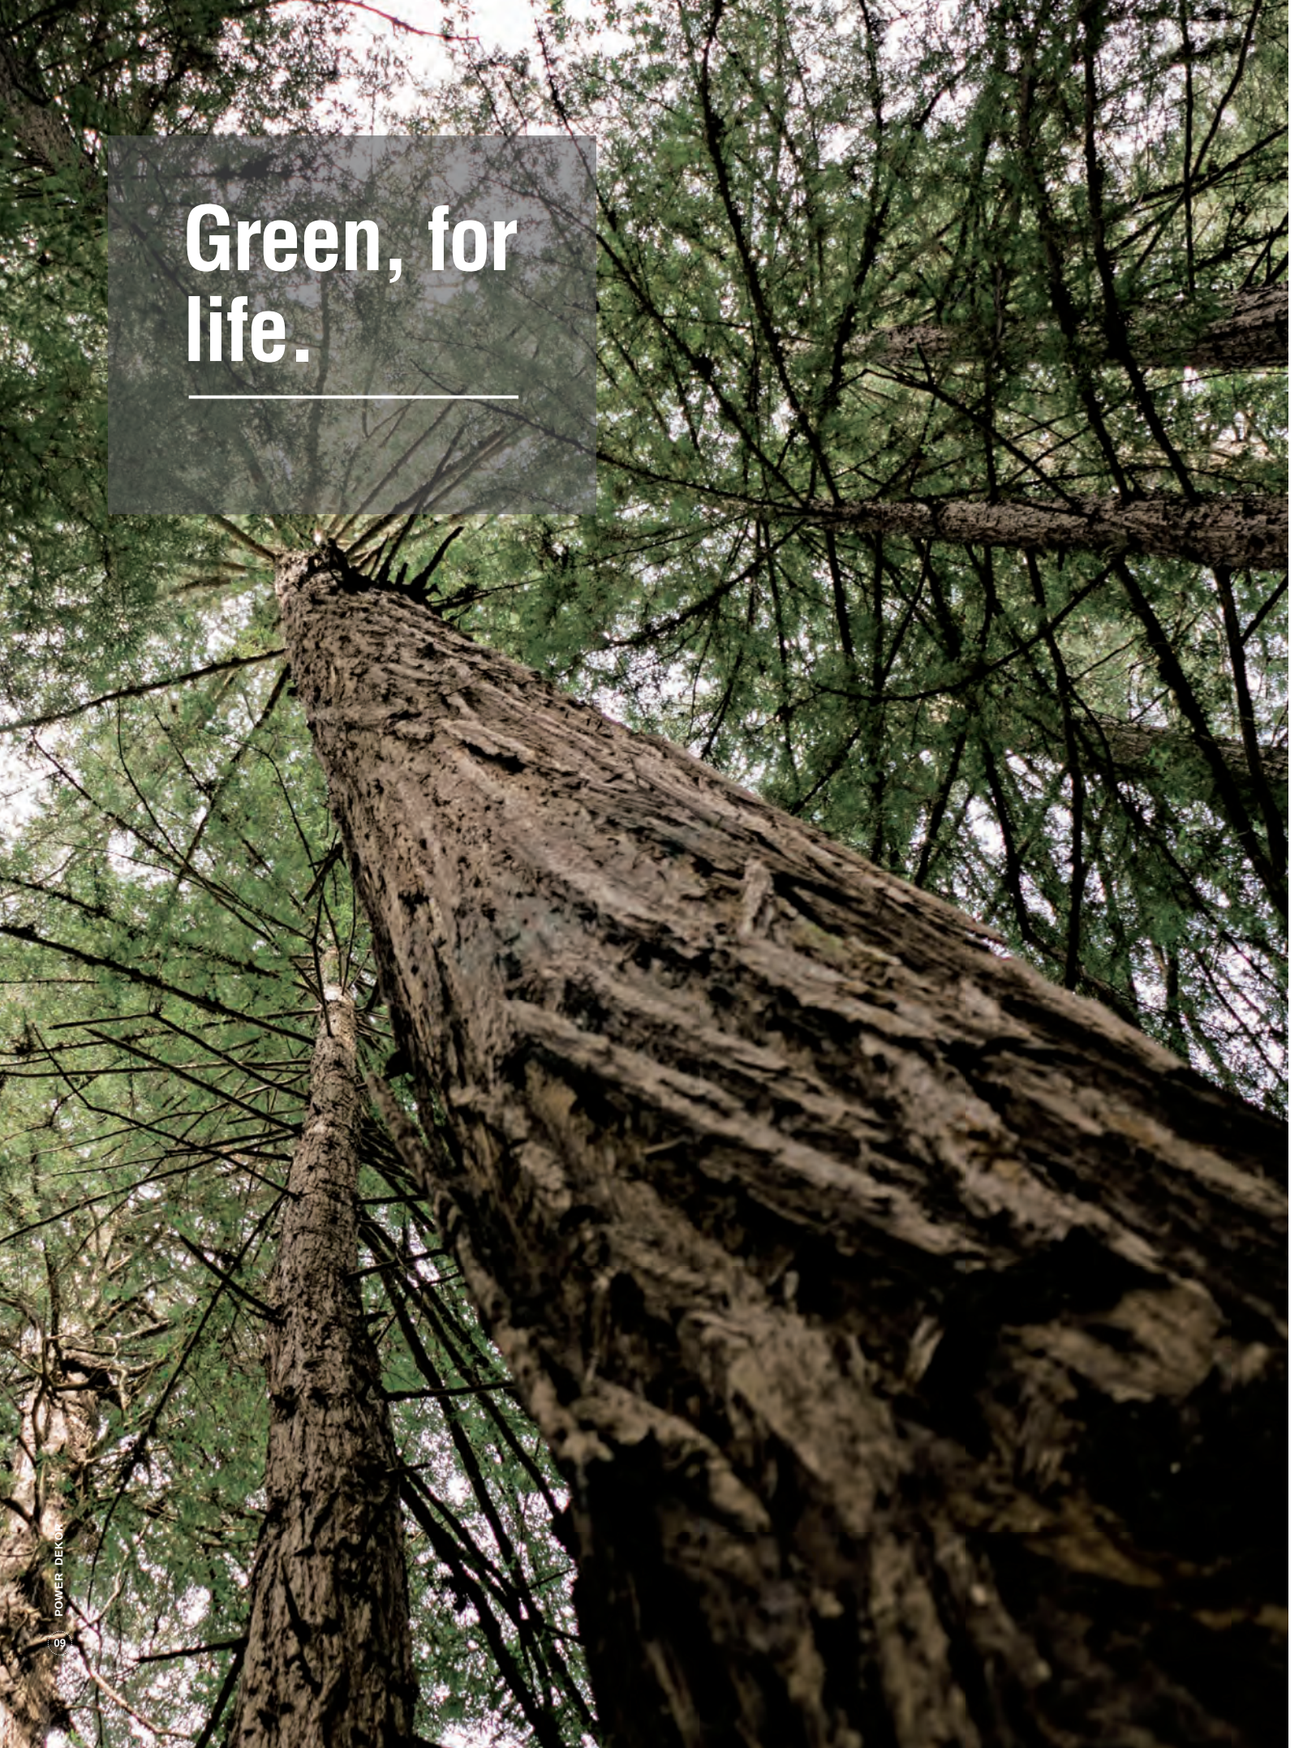
Commoditization and uniqueness. Power Dekor boasts both standardized highly automated production lines from Germany which makes production extremely efficient and small and flexible production lines from China which benefits quick innovation and incubates differentiated products. Here one-stop purchasing is feasible.

Standards and sustainability. China, EU, USA, Japan and internal, a full range of standards guarantee the best quality in the industry.

R&D

Moreover, Power Dekor extends its global footprint to design and R&D by making use of top resources in or across industries and turning into upgraded products that are beautiful and durable.

Power Dekor has established cooperation with Schattdecor, Valinge, DNP and more with latest décor designs, the smartest installation systems and revolutionary new materials.



Green, for life.

Improve the way people live.

"Sustainable thinking is one of the principles of our business. We are running a long-term business, and so have to operate in a green way. Our goal is to achieve excellence and create values with the utmost respect for the people we work with and the world we live in. "

We promise a healthy living.

All the floors meet the national and industrial emission standards of destination countries. At the same time, Power Dekor provides products with the highest enterprise standards, the United States FloorScore certification. Additionally, products can be also used in special fields, such as office, classroom, etc.

In addition, Power Dekor promises the product has no heavy metal and phthalates plasticizer. It is also certified by U.S. Toy Safety Specification.

Have our commitment to responsible manufacturing and a better environment.

Environmental protection and sustainability have been deeply rooted in Power Dekor People's mind. At Power Dekor, all facilities are certified with ISO14001 and ISO9001 certifications, with some of them are additionally certified with regional specific certifications such as European TUV, CE and REACH, and South Korean KS. What's more, Power Dekor provides according to customers' requirements with FSC mix and PEFC certified products. In a word, with Power Dekor, you have our commitment to responsible manufacturing and a better environment.

Diamond Gard™

Next Generation Coating System.

If you're shopping for the best water-resistant flooring, rigid core flooring should definitely be on your shortlist. It's a hybrid that combines waterproof property of vinyl flooring and dent resistant attribute of hard surface flooring. Now, it's enhanced with ultra resistant features like scratch, impact, cigarette burns and stain with Diamond Gard ™ finish. Take a look of what troubles Diamond Gard ™ can fix.

Scratch resistant

Think pets' claws. Drag heavy stuffs like furniture. With Diamond Gard ™ , don't worry about scuffs.

Impact resistant

Pointy shoes, dropped objects, heavy standing furniture may cause obvious dents. No problem to face these challenges with Diamond Gard™ .

Cigarette burns resistant

Customers may inadvertently leave cigarette butts. Make your cleaning an easy job with Diamond Gard™ .

Stain resistant

Oily ink may stain your floor. But with Diamond Gard™ , marks can be removed with a dry paper towel.

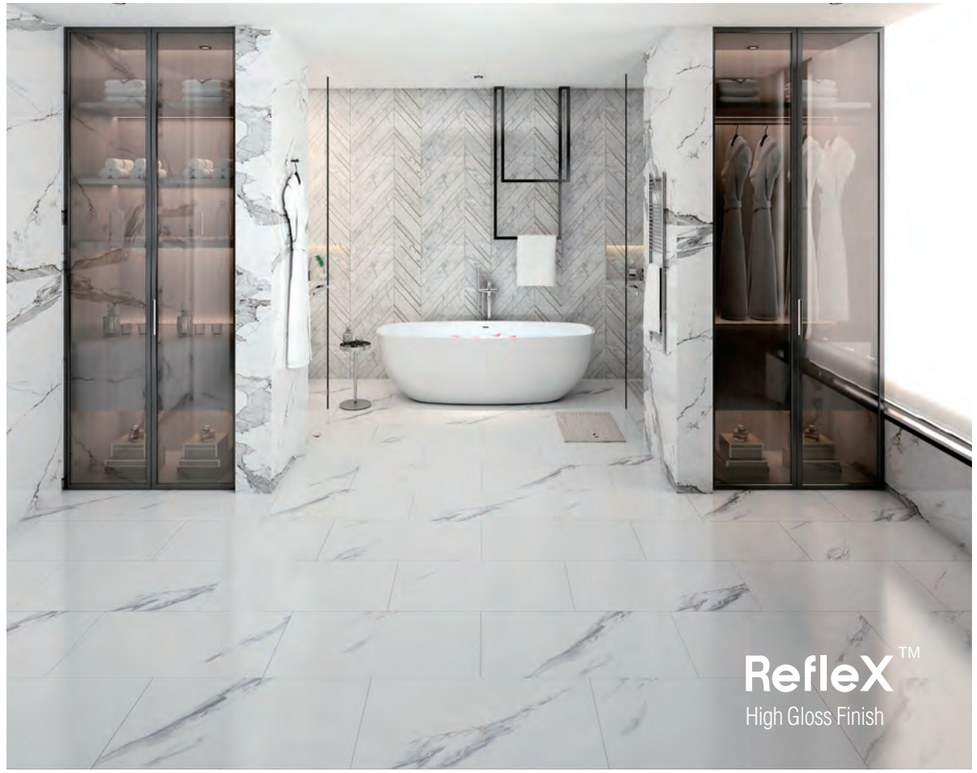
U-Protect™

Stain resistance system.

U-Protect™ is a proprietary acrylic-based coating system that benefits vinyl flooring with enhanced stain resistance property.

All Power Dekor vinyl products are coated with U-Protect™ as standard.

Stain Resistant | Waterproof | 100% Eco-friendly



RefleX™

High Gloss Finish

Scuff Resistant | Scratch resistant | Wear Resistant

High Gloss has been regarded as a indispensable style for interior design and Power Dekor' s high gloss engineered wood & laminate flooring prevail all over the world for a long time. However, high gloss finish on vinyl flooring is a big challenge to the industry. But now, Power Dekor leads the trend again and breaks through this technical problem. RefleX™ gives smoother touch and brighter impression to vinyl floorings due to the production process for stable flatness. At the same time, RefleX™ also accomplishes scratch/scuff/wear resistance.

It is hard to recognize first-grade natural stone tiles and RefleX™ SPC flooring with marble pattern. It draws the appearance from tiles but also provides warm foot feel and high intensity.

AquaREPEL™

Impermeable Technology For All.

Choose a budget-friendly wood composite flooring, laminate comes first.With upgraded printing technology, it’ s hard to tell laminate from real wood. Compared with vinyl composite flooring, laminate is warmer and more indentation resistant. But what makes laminate be dwarfed is that wood is prone to water damages. AquaREPEL™ is right here to conquer water damages.

Pet friendly

You can’ t ask your pets be careful when drinking, let alone sometimes it may just be upset and bring some “surprise” . With AquaREPEL™, take it easy.

Daily spills friendly

Have spills when cooking or washing? Your floors will be ok with AquaREPEL™ . Just enjoy lovely cooking hours. Don’ t let accidents disturb you.

Easy cleaning

Vacuum cleaner removes debris from floors, but will leave stain as it is while wet mopping can make a difference. AquaREPEL™ floors can be wet mopped, making your deep cleaning a breeze.

AquaREPEL™
Impermeable Technology For All.

Veneered HDF Flooring

Veneered High Density Fiberboard Flooring

Veneered HDF flooring ensures quality and durability in every home. One of the most significant considerations for families with children or pets is that the surface is easy to clean and the construction is stable for daily use. Veneered HDF flooring is a premium three-layered flooring with a captivating and accurate natural wood look. Its surface treatment make it easy to clean, meanwhile, the waterproof HDF core guarantees its long-time structure stability.

Natural Veneer

Veneered HDF flooring with its natural veneer surface that ensures the same warm foot feel as the engineered wood floors.

Waterproof HDF Core

Thanks to waterproof HDF core that makes the floor can withstand higher humidity levels, enables it to live a longer life with fewer possible concerns. Family owners don't have to worry about an uneven floor with boards that have popped up as a result of being dry, brittle, deformed, and worn out.

Interlocking System

HDF core gives the floors additional flexibility regardless of how they are installed. It is suitable for a variety of interlocking systems, which makes it ideal for DIY'ers.

Stability & Durable

The HDF core, made of compressed wood fibres, counteracts movement and makes the floor more stable. It is ideal for high-wear spaces, likes children's bedroom.

Eco-friendly

Veneered HDF flooring is a great option with low VOC levels. The flooring comes with nontoxic finishes and stains that preserve the air quality in your home.

Heritage Two | Heritage

Beautiful and durable

Power Dekor rigid core line captures the beauty of natural elements with wood or stone pattern film or authentic veneer, but surpasses natural elements in performance. There comes products beautiful and durable.

Reasons to specify

- **Eco friendly.** 19 toxic heavy metals free, 40 phthalates plasticizer free, formaldehyde free, extremely low TVOC emission. REACH Certified.
- **Stain resistance.** Unique coating system makes it stain resistant, anti-bacterial and easy to clean and maintain. E.g., cleaning oily pen marks is a breeze of wind.
- **Resistance to cigarette burns.** Exceptional base panel composition contributes to cigarette burns resistance property, making the flooring last for years.
- **100% waterproof.** A revolutionary composition made of polymer nano materials and natural inorganic compounds amplifies its waterproof property. Patented extra tight click prevents water from penetrating through the joints.

Laminate

Laminate

Ego | Style and character.
Ease | Wellness and mindfulness.

Style and performance

Power Dekor laminate line features variation in design and superiority in performance. In detail, we provide laminate solutions with genuine natural effects or unexpected artistic designs that make your statement. Thanks to our in-house HDF manufacturing and ever-improving lamination technologies, Power Dekor laminate is superior from the core and beyond.

Reasons to specify

- **True-to-life.** Improved printing technology and the unique positioning and pressing process endow laminate with the most realistic appearance.
- **Scratch resistance.** Aluminum surface treatment makes laminate the most scratch resistant floors that can bear up to 4N loading strength applied to a diamond point.
- **Underfloor heating system compatible.** Wood fiber construction makes sure that laminate is suitable for heating systems with expanding ≤ 0.40% and shrinking ≤ 0.15% only.
- **Eco friendly.** All Power Dekor laminate floors meet European E1 standard. Also, Power Dekor provides custom orders with F☆☆☆☆ products, the most stringent standard in the world.

Ego Style and character

Laminate

Ego is outstanding with characteristics that speak typical European modern spirit, such as knots and cracks, color variations and effects of oak wood. Comes in the timeless colour trends, Ego is perfect to make a unique in home.

With AquaREPEL ™ additional moisture protection is available to conquer water damages.

Edge adds subtlety

Some floors come with bevel, reinforcing the look of real hardwood.

V-bevel

Creates the look and feel of a solid wood floor.

Micro V-bevel

Accentuates the plank edges for a refined and truly elegant effect.

Pressed U-bevel

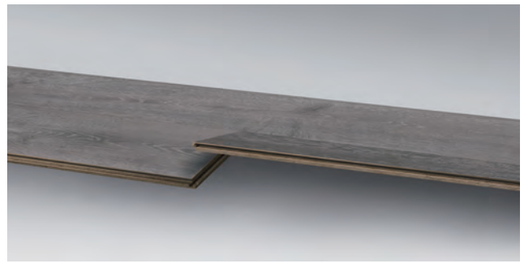
Showcases the ultra-realistic detail and endless beauty.

Square Edge

Gives rooms a traditional upscale look.

Easy to install

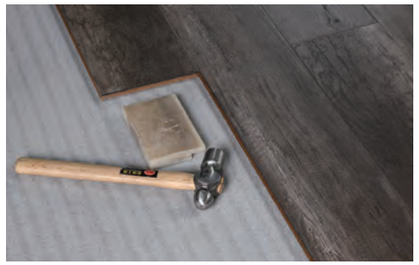
With the revolutionary patented Uniclic® click system, it's extremely easy to install laminate. Roll your planks into each other, or simply press them together. Whether choose Angle/Angle or Drop Lock, you can expect a seamless and strong joint between planks.



Angle/Angle

Extra strong and tight

The patented rotation locking system makes it easy to roll the panels together with a seamless and strong result.



Drop Lock

Easy and fast

Power Dekor introduces drop lock system on the short side of selected products. By angling the long side of the panel in, the panel can be connected on the short side simply by pushing the panel down on the short side. Extremely easy.

Textures enhance the beauty

Texture can add a lot to a décor. It can accentuate the authenticity, elegance or luxury. Or create the warmth of a setting.

Power Dekor offers choices of authentic hardwood, exquisite craftsmanship and splendid luxury. A variety of textures are available here.

EIR

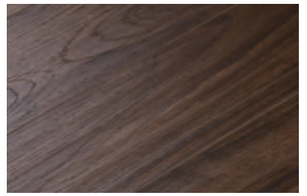
The emboss in register texture makes laminate true to nature

Rustic

Featuring a stunning natural looking wood structure

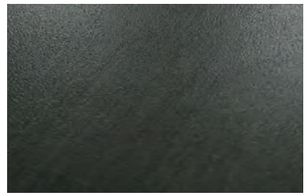
Sawcut

An exceptional look in a natural tone which is supported by a sawcut finish



Handscraped

Gives the planks a real craftsman's look



Sand

Creates a soft and warm ambience for your home

Natural Luster

Creates a sleek and custom hardwood look

Gloss can make a difference

Love your floor to every last detail. Gloss is one of the details.

No matter traditional pronounced high gloss or extreme matt, you can find your option with Power Dekor.

Matt **Silky** **Satin** **Natural** **Shiny**

Easy to maintain

Thanks to its anti-bacterial technology, Power Dekor laminate flooring just needs to be cleaned with a vacuum or damp cloth. You can also wet mop your AquaREPEL™ floors for intense use, just remember to dry the floor within the hour to keep it well for years.

LIMITED WARRANTY

Qualified product combined with proper installation and maintenance guarantees beauty and performance for years. Power Dekor offers limited warranties on staining, fading, wear and moisture resistance on condition that floors are properly installed in accordance with Power Dekor installation instructions and by an authorized installer, and are properly maintained according to Floor Care and Maintenance instructions.

Check Floor Care and Maintenance for details.

Areas of use floors for every demand

No matter where to use, you'll find the right laminate floor at Power Dekor in a quality that always meets the highest standards. Know levels of use and make your decision.

Levels of use	
23/31	For residential applications with heavy traffic and commercial applications with moderate traffic.
23/32	For residential applications with heavy traffic and commercial applications with general traffic.
23/33	For residential applications with heavy traffic and commercial applications with heavy traffic.

Properties forever strong and true

100% in-house impregnation comes with an ultra durable surface. You'll expect a floor that is true to life and can last for years without staining or fading when properly maintained. The ultra durable protective surface also prevents flooring from being worn through under suitable circumstances. In general, Power Dekor laminate floors are more than appearance.

- Dimensionally stable
- Suitable for underfloor heating system
- Antistatic
- Cigarette impact resistant
- Wear resistant

Wood/Bamboo without compromise

Power Dekor engineered wood line is flexible in construction and pattern with multiple choices to meet diversified demands. Vogue brings authentic Scandinavian living taste and Eternity offers highly distinctive colours for exceptional tastes and a wide spectrum of design options.

Reasons to specify

- **Beauty that lasts.** UV coating makes real wood durable with ultra wear and scratch resistance. Power Dekor engineered provides Diamond Gard™ coating solution for extreme excellent performance.
- **Superior stability.** Cross construction contributes to greater stability. Linear expanding is as limited as 0.1% Only. Floors won' t be too fragile to surrounding humidity variations.
- **Underfloor heating system compatible.** Cross construction makes sure that engineered wood/bamboo is suitable for heating systems with length expanding ≤ 0.30% and shrinking ≤ 0.20% only.
- **Eco friendly.** All Power Dekor engineered floors meet European E1 standard. Also, Power Dekor provides custom orders with F☆☆☆☆ products, the most stringent standard in the world.

Vogue

Multi-layer wood floors
Veneered HDF wood floors

Vogue features strips that are positioned randomly, which creates a floor with individual character. Usually, Vogue comes with flat finish for tranquil feeling, but some are enhanced with wire brushed or hand-sculptured finish, creating added-value with livelier ambience.

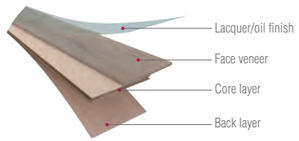
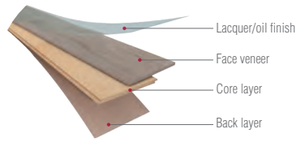
Construction

Multi-layer (veneer)-construction



VHDF-construction



3-layer-construction

Easy to maintain

Tongue & Groove

Power Dekor multi-layer wood floors come with the classic Tongue & Groove installation system. It's extremely easy to install multi-layer wood floors allowing planks to be fitted tightly together.

Valinge / Uniclic

With patented Uniclic or Välinge click systems, Power Dekor VHDF flooring is extremely easy to install. Roll your planks into each other, or simply press or push them together.

Pattern

Single strip

2-strip

3-strip

Finish

Wire brushed

Brush the surface to highlight the natural structure of the grain creating additional texture.

Hand-sculptured

The distinctive color and grain of hardwood is sculptured by the craftsmanship.

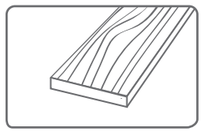
Emboss

Create concave-convex value through scraping and brushing.

Crystal

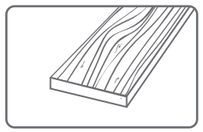
The unique coating treatment makes floors look shiny and as hard as crystal.

Grading



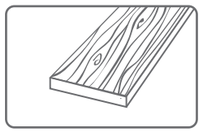
Neat

Extreme clean veneer with limited color variation.



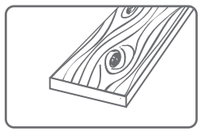
Vivacious

Relative clean veneer with vivid color variation, but limited knots.



Active

Natural veneer with lively color variation and dotted knots.



Impressive

Rustic veneer with characteristic knots and cracks.
